

Name _____ Mirrer Yeshiva HS May 20, 2020 Rabbi Bresler
Class _____ Biology Remote Learning Chapter 35-1 The Nervous System

This assignment is due Sunday Night May 24, 2020

First read pages 890-896

1. In your own words write one or two sentences describing the general topic of this subchapter. - _____

Define: Page 891

2. Tissue _____

3. Organ _____

4. Organ system _____

Page 892-3

Describe the 11 human organ systems below, and name to parts of each:

	<u>Function- What does it do?</u>	<u>Structures-parts</u>
5. Nervous System		
6. Integumentary System		

Biology Remote Learning Chapter 35-1 The Nervous System

	<u>Function- What does it do?</u>	<u>Structures-parts</u>
7. Respiratory System		
8. Muscular System		
9. Circulatory System		
10. Respiratory System		
11. Digestive System		
12. Excretory System		
13. Endocrine System		
14. Reproductive System		
15. Lymphatic System		

Biology Remote Learning Chapter 35-1 The Nervous System

Page 894

The systems are made up of many organs and parts. Those parts make up different systems but the individual organs themselves are made up of tissue.

Describe the 4 tissues in the heart and their functions:

16. Tissue #1 _____

17. Tissue #2 _____

18. Tissue #3 _____

19. Tissue #4 _____

Page 896 Note: This question will be credited as 5 questions

20.-24 Describe why is it necessary for and how the body regulates its temperature.

(please use the following words: homeostasis, hypothalamus) _____
